Graphic experiences

July 2017 - Today

UI/UX Graphic design for the InvestGlass fintech.

In charge initially of the visual redesign of the application design, I then had the opportunity to develop chatbots providing automatic responses to users and participating in the design of websites on Joomla. Thanks to InvestGlass, I discovered new technologies and languages such as haml, less, meya.ai, api.ai and intercom.

February 2017

Graphic Designer for the International Film Festival Tous Écrans.

My part-time job (20%) for this festival allowed me to go through the creation of various print communication. I was able to produce brochures, web banners, postcards, etc.

Juillet - Septembre 2016

Intern at Ramon Valle, freelance graphic designer.

This internship continued punctually during the year according to the mandates of Ramon Valle. I attended the creation of layout for a catalogue, a program, web banner, visual identity searches, a roll-up of signage. I was able to work for clients such as the United Nations, the RTS, Cinébulletin and the International Film Festival Tous Écrans.

Experiences
